

Facilitator

- Get your team started by having someone read the task out loud.
- Check that everyone understands what to work on.
- Make sure that everyone understands your team's answer before you move on.

Resource Manager

- Get supplies for your team & make sure that your team cleans up.
- Make sure that everyone has shared all of their ideas and help the team decide when it needs outside help.
- Call the teacher over for team questions.

Task Manager

- Make sure that no one talks outside your team.
- Help keep your team on-task and talking about math.
- Listen for statements and reasons.

Recorder/Reporter

- Make sure that your team agrees about how to explain your ideas and each person has time to write their answer.
- Make sure that each member of your team is able to share ideas.
- Share out ideas for the team.

Technology Manager

- Get a Chromebook and mouse for the team.
- Log into the Chromebook and connect it to the HDMI cable then change the input source on the TV.
- Open the eBook to today's lesson.

Floater

- Look around the room to see if any team has less than five members (after the bell has rung).
- Move to a different team when asked to.
- Take on the missing team role from the new team.
